a division of SonicSpider LLC

Detailed Package Description

WordPress Migration - Business Package

RightStart Websites is a division of SonicSpider LLC. This work description from SonicSpider LLC is bound by the *General Terms of Service Agreement* as posted on SonicSpider's web site (<http://www.esonicspider.com>) and the "RightStart Terms of Service" published with this description. Both documents may be modified without notice.

(Pre-paid discount packages for extra technical consulting and programming are available online through the SonicWebTech Program, www.sonicwebtech.com)

Package Description:

The features of this website migration package are listed below. Any additional services needed beyond the services listed below will require the purchase of an additional service package.

- If Requested: Moving of old site to temporary backup site.**
- Install WordPress at your hosting service.***
- Install core administration utilities: Backup and Security Tools
- Install and configure your choice of SEO, Social Media, Gallery or Video Plugins. (Maximum one hour allowance)
- One hour of WordPress Training or Theme consultation (via Dev Center or Phone)
- Two hours of online Technical Support or Graphic Design assistance through Dev Center****.
- Basic WordPress Training guides and videos through the Dev Center****.

Service Deliverables:

- One year membership to all Dev Center educational resources
- Document that covers required URLs, and login settings
- Dev Center notes and documentation of migration.

***At your request we move your static website to our development servers so you can access your old website files during the migration. This allows you to "cut and paste" content and compare design issues as you work on your new site. This service is available for 3 months from the date of the request.*

****Installation does not include technical issues that might prevent or complicate installation at your hosting provider. Issues might include but are not limited by: PHP versions and related hosting service versions, Mail server access, FTP access and Database management tools access. If those issues can be resolved by you, then the proper credentials must be provided to your WebTech, or if not, then the purchase of additional technical support would be required so we can handle this for you.*

*****All services are provided and managed through our [Sonic Development and Resource Center \(Dev Center\)](#). The Dev Center helps you manage your services at your own pace. You can see at a glance what services you have used in the past and what time remains on your service. This helps you get the most out of your migration package.*

Total Pre-Paid Cost: \$395.00
